Prodevans Container Adoption Philosophy

Migrate the right things
- Carefully selected application candidates
  - First Co-Lives (un-optimized)
  - Baselined Path to Production
  - Initial metrics

Walk “Ones”

Run “Tens”
- Migrate next candidates, iterate
- Improvements to Path to Production
- Additional Co-Lives exhibit progressive improvements
- Path to Production evolving with How-To Guides, Patterns, Code Samples,
  Improved processes, Automation
- Comparative metrics and ROI emerging

Migrating them Right
- Using next candidates, iterate
- Improvements to Path to Production
- Additional Co-Lives exhibit progressive improvements
- Path to Production evolving with How-To Guides, Patterns, Code Samples,
  Improved processes, Automation
- Comparative metrics and ROI emerging

Fly “Hundreds”
- Migrate at scale
  - Path to Production highly optimised
  - Automation and self-service
- High volumes of high-velocity migrations
- Compelling ROI realised

Migration Ability = Supportability + Reliability + Consumability + Repeatability + Scalability

Prodevans Container Adoption Program

Six Steps to Digital Leadership

BEGIN → Discovery Session

Pilot
- Validate container technology as appropriate for the organization

Prepare
- Prepare to expand containers at scale

Expand
- Expand container adoption and engage the community

Accelerate
- Accelerate container adoption through repeatable patterns

Optimize
- Refine patterns for increased cloud capability and automation efficiency

Self-Sustain
- Distributed subject matter expertise in container orchestration and cloud development
